Cars and Bikes

For the first time ever in a Burnout game, cars are no longer your only option for getting around town. Now, motorcycles are accessible to rip up the streets.

To ride a motorcycle (or choose another car), simply drive to one of the game’s junkyards. You can then select Paradise Cars or Bikes from the menu. Once you have chosen your vehicle type, scroll left or right to view the vehicles. The new vehicle will then appear with a breakdown of its cruising speed, boost speed (if available), and strength statistics. A short description of its unique features will also be shown on the ticker.

Selecting a vehicle will then allow you to choose different paint options. Cars must be repaired at an auto repair shop before they can be painted. Bikes also allow you to choose the rider’s gender.

At the start of the game you get to drive one of the cars—the Cavalry—and two of the motorcycles—the agile Nakamura FV1100 and the high-performance Firehawk V4. Additionally, two new cars—the hulking 4x4 Hunter Olympus and the incredibly sleek Nakamura Rai-jin Turbo RWD—are available for selection in the junkyard during online games. Please note that these vehicles will appear in a separate menu, and only when playing an online game.

Party Play

When playing a Burnout Party game, players take turns in a series of games that are designed to test your Burnout driving skills. They are also a great way to see some of the cars and locations of Burnout Paradise.

There are three different categories of games: Stunt games where players succeed or fail at performing a stunt, Skill games where players try to get the highest score, and Speed games where the fastest time will win.

To start a Party game, select START A PARTY from the main menu. You can then choose the number of rounds and players, don’t forget to enter names and pictures (if you have a USB camera attached) for each player.

Freeburn the Streets

Welcome to Paradise

Grab your license, hop in your ride, and hit the streets. There’s a whole city to discover out there—how and when you do it is up to you. From the main menu, select ENTER PARADISE CITY to hop into the game, START A PARTY for local multiplayer, or the Burnout Store to see what extra content is available online.

Burnout Paradise Network

Upon first booting up the game, you will be presented with a live news page detailing a variety of useful information. Please note that an online connection is required for full use of this feature.

Calendar  Check the calendar frequently for special content and online events!
Weather  Get the lowdown on weather conditions for a variety of major cities.

Smashes (Cars Only)
Keep your eyes peeled for barriers marked with yellow Private Property signs—crash straight through them to uncover secret shortcuts and hidden areas.

Tip: If you are driving around Paradise City in a car, then keep a look out for the following collectibles. Your progress in finding these various objects and locations is referred to as Discovery, and they will not only help you navigate through Paradise City, but finding them all will unlock some very special cars.

Billboards (Cars Only)
The easy part is finding the Burnout billboards posted around the city. The hard part is figuring out ways to crash through them.

Super Jumps (Cars Only)
Paradise City's most dangerous ramps and jumps are marked with bright blue warning signs and lights. Launch off these at insane speeds to fire up the Super Jump camera.

Power Parking (Cars Only)
To power park your car, hit the e-brake to spin your car into the space between two parked vehicles. To bag a good score, park as neatly as you can without any dings. If you do hit a parked vehicle, then you will need to find somewhere else to power park.

Road Rules
When driving a car, every single street in Paradise City has two Road Rules waiting to be broken. Each one has been set by another Burnout driver. The Time Road Rule is the fastest time driven down the length of the road. The Showtime Road Rule is the highest total scored in a Showtime crash started on that road.
To switch to Road Rules, press Easy Drive Up (Num Pad 8) to toggle between Best Time and Best Showtime information, or by selecting ROAD RULES on the Easy Drive menu.
When Time or Showtime Road Rules are on, the road name sign(s) at the top of the screen turn red, indicating Road Rules that need to be beaten. Break one Road Rule and the street sign turns silver. Break both to Rule the Road and turn the street sign gold.

Time Road Rules
Start the clock by driving onto a road from either end. Stop the clock by driving to the other end of the road as quickly as possible. When riding a bike, each road has a unique Day and Night Time road rule to beat. At night the traffic will be lighter so the times should be faster.

Note: If an online friend has set a Road Rule target, their record appears under Friend’s Best.

Note: Road Rules can also be shown on the map—switch the display to Road Rules, then toggle between Online and Online information for each road.

Showtime Road Rules (Cars Only)
If you have won at least four offline events you can activate Showtime at any time. Smashing into vehicles will then earn boost and Showtime score. Using boost whenever you smack the pavement will bounce your car into another vehicle. Hitting a bus will add one to the score multiplier. Aim for the highest total Showtime score by causing maximum damage and traveling as far as you can. When your wreck comes to a halt, Showtime’s over.

Note: Switching to Showtime quits any current Event or Time Road Rule you are competing in.

Events (Cars Only)
Every junction is the starting point for a new event—and winning events is the way to upgrade your license. Pull up to any junction and check the name above your mini-map to find out what type of event it hosts. If you have already completed the event, a tick will be shown in the event icon. To start an event, stop at an event junction and spin your wheels by accelerating while the brakes are on. To quit an event, come to a halt or enter Showtime.

Races
Buckle up for a point-to-point race to one of the eight finish points in Paradise City. There’s no fixed route but the road signs at the top of the screen and the vehicle’s indicators will flash to inform you which way to turn at the next junction. Every finish point has a large red banner which you have to drive under to finish the race.

Road Rage
The aim is simple—take down the opposition! Smash enough rivals off the road within the time limit to hit the Takedown target. Every car you Takedown will add 10 seconds to the time limit.

Marked Man
In this point-to-point race, you’re the prey—and the other drivers are aiming to smash you off course with a takedown. Reach the finish point in one piece to win.

Stunt Run
Use your boost to link stunts in order to rack up points and beat the target score within the time limit. Once you’ve started using your boost or pulling a stunt move, a countdown timer appears at the top of the screen. To combine moves in a combo, quickly start another stunt move or boost before the timer runs out. Stunts and combo scores are added to your overall score.

Note: Land flashy moves like Super Jumps, Billboard Smashes, or Barrel Rolls to earn a score-boosting multiplier.

Burning Route
When you approach a junction, occasionally a car name pops up instead of an event name. This means you’ve just been challenged. If you happen to be in the car that’s named, spin your wheels to enter a Burning Route race. Speed from point to point and beat the time limit to earn yourself a brand new ride.
Events (Bikes Only)

Thirty-eight special Burning Ride events are setup around the city and are only available when riding on your bike. Unlike cars, these events can be attempted on any of your available bikes.

**Burning Ride**

Some of these events are point-to-point races like cars, while others will see you following a series of checkpoints around the world. They are only available during the day time (8am to 8pm).

**Midnight Ride**

The same as Burning Rides, except only available during the night time (8pm to 8am).

License and Shutdowns

Upgrade that embarrassing learner's permit by winning events around the city.

**License**

Every event you win adds another point to your license. Although you can compete and win in any event as many times as you want, winning it only counts as one point towards your upgrade. Once you earn a license upgrade, the status of all events is reset, so you can compete in previously-won events again to earn points.

Press ESC to view your license at the Driver Details screen.

**Tip:** You can personalize your license by adding your photo to it. You will need a webcam attached to your PC to do this.

**Shutdowns**

Winning events will get you recognized in Paradise City, so be prepared for other drivers coming after you. Look out for rivals buzzing the streets, then take them down to win their wheels.

**Tip:** When on a bike, you have a completely unique license progression to track your progress.

Driving

**Hit the DriveThru**

Speed your way to one of Paradise City's Drive-Thrus for an instant service.

**Gas Station** Stop at one of these for a boost refill.

**Auto Repair** Your destination for speedy repairs.

**Paint Shop** Pay this a visit for an instant spray job.

**Junkyard** This is where all your cars are stored. Drop in to change your current car’s look, or pick out a new set of wheels.

**Note:** When riding a motorcycle, Auto Repair and Gas Stations are disabled. Similarly, Showtime mode is also disabled.

**Boost Types**

Whatever your driving style, there's a type of car to match. Different car types offer different handling styles, and earn and use boost in different ways.

**Stunt**

Stunt cars are built for rolls, jumps, drifts, spins, and catching air. Pulling moves like these is the quickest way to max out their green boost bar.

**Aggression**

Aggression vehicles allow you to build that rage-red boost bar quickly with hostile driving. The bad news? Every time you’re taken down, your boost bar takes a hit.

**Note:** You can earn boost and burn it at the same time with the Stunt and Aggression boost types. Press left SHIFT for an exhilarating burst of speed, then refill your boost bar as you go by engaging in some more dangerous driving.

**Speed**

Fill your yellow boost bar by taking serious risks. And build it up quickly, because the speed boost can’t be used until the bar is completely filled. Once it's full though, you can start boost chaining!

**Chain Boosts**

1. Use up your full boost bar in one burst of acceleration and you’ll achieve a Burnout.
2. Achieving a Burnout automatically refills part of your boost bar.
3. If you have been driving dangerously enough the boost bar will be refilled completely, allowing you to chain Burnouts together.
4. Keep it up as long as you can—the boost chain ends either when you crash or run out of boost.
Press ESC to open your in-car Crash Nav system for instant access to all the info you need. Press F1 and F2 to switch through the Crash Nav menus: Driver Details, Under the Hood, Paradise City Online, the Burnout Store, and the Paradise City map.

Under the Hood
This is the place to set up the game the way you want to play it. Here, you can save or load a game (see Saving and Loading), adjust game settings, tinker with your EA TRAX, see the game credits, manage your account, or adjust visual, audio, and communication preferences.

Time of Day
One of Burnout Paradise The Ultimate Box’s greatest features is a 24-hour day/night cycle. The time of day not only affects how the game looks, but also traffic density and the available events.
- To change the settings for this feature, select TIME OF DAY (Game Options) using the arrow keys and then press ENTER. You can then set the time of day to cycle every 24 hours, every two hours, every 48 minutes, or every 24 minutes. Additionally, you can manually set and freeze the time of day, or for the ultimate in realism, set the time to match your current local time!
  Tip: When playing an online game, the time will automatically be set to the host’s time.

Paradise City Map
When you start out, there won’t be much marked on the map—you’ll need to find events and other drive-thrus to get them added. Different events are marked with different colored icons. Completed events are marked with a tick.
- Use the mouse to explore the map and the mouse wheel to zoom in and out. You can also use the Camera controls (DELETE, PAGE UP, HOME, END) to navigate the map.
- Use the Easy Drive controls (Num Pad 4, Num Pad 6, Num Pad 8, Num Pad 2) to filter what is displayed on the map; Events, Drive-Thrus, or Road Rules.

Driver Details
As well as viewing your license, you can also check out your other achievements here. Select RECORDS to view your driving statistics, DISCOVERY to see how many Drive-Thrus, Billboards, Jumps, Stunts, and Smashes you’ve found in each of Paradise City’s five boroughs, or press 1 to view the Paradise Awards you’ve collected.

Paradise Awards
These are awarded for special actions performed in Paradise City. Collect all of them—as well as all the Super Jumps, Smashes, Billboards, Road Rules, and Event wins—for a special reward.

To head online in a hurry, press Num Pad 6 during Freeburn to open the Easy Drive menu.

Playing Online
In order to play Burnout Paradise The Ultimate Box online, you must create an online account by following the on-screen instructions. If you already have an account, you are able to access online features automatically.

Playing Behind a Firewall
If playing behind a firewall, you must open the following ports: 1000 (peer-to-peer connection); 9603 and 9630 (VOIP).

Tear up Paradise City online with up to seven other drivers. On top of the usual Freeburn activities (see Freeburn the Streets P. 3), you can also view Today’s Best stats (shown at the top right of the screen), collect mugshots, and join with other drivers to complete challenges.

On occasion, Freeburn Online may be limited to six drivers. Additionally, only the same type of vehicles—cars or bikes—can play online together. If you join a game with a different vehicle than the one in play, yours will automatically be switched to the correct type.

Activate Road Rules for the chance to beat your friends’ records.

The online version of Road Rage is an eight-player, team-based event. One team must race through checkpoints throughout Paradise City, while the other team must smash them off the road to reach the takedown target. When you are on the racer team you have no access to boost.

In this point-to-point race, a randomly-selected player is the prey, while the other players are the predators. The marked man scores by surviving for the time limit. When you are the marked man you have no access to boost.
Stunt Run
Just like the offline version of Stunt Run, players must perform stunts to rack up as high a score as possible in the given time, though there’s a twist: hitting an opponent kills their score and gains multipliers. All online players compete simultaneously.

The Lineup
Take down another player, then take a mugshot to keep as a memento of the occasion.

Notes
- Only 20 photos of each type can be stored. If more are added, older ones are overwritten.

Setting Up Your Camera
In order to send and receive photo Mugshots, a USB camera is required. To ensure your camera is working, select OPTIONS in the Under the Hood menu, and confirm that USB Camera Feed is ON.
- For Photo Finishes and Event Mugshots only, players without a compatible camera will send their user icon.

Challenges
Co-operate with other drivers to complete online challenges. The host can choose a Freeburn or Timed challenge from the Easy Drive menu. Highlighting a challenge will show a brief description of the challenge. Selecting a challenge will start it. A challenge will end when all players have completed the challenge goals. Some challenges may end if one of the players leaves the room.

Notes
- The host can prevent additional players from entering by using Change Access in the Easy Drive menu.

Races
To start racing, select UNRANKED RACE or RANKED RACE from the Easy Drive menu, then choose JOIN or SEARCH to join a pending race (or select HOST to start one). A Freeburn Online host can start a race by selecting CREATE RACE from the Easy Drive menu. They can then select a pre-designed Paradise Drive, or if in an Unranked Race, create a new one. They can also save and load routes they have raced before. Unranked races also allow up to five races to be run back to back with GP style points being awarded for finishing positions in each race.

When racing a Ranked Race, players are ranked according to who they finish ahead of or behind. Finishing ahead of high-ranked players is the quickest way to improve your rank.

Leaderboards
View your Race, Road Rules, and Showtime rankings.

News
Select BURNOUT PARADISE NETWORK for updates on your Burnout Paradise online experience.

Saving and Loading
Burnout Paradise The Ultimate Box autosaves your progress at certain points during the game.

Notes
- Do not switch off the PC when the arrow autosave icon (rotating arrow) appears in the top left-hand corner of the screen.
- If you have previously played the game, Burnout Paradise The Ultimate Box autoloads your progress when you start.
- To save or load your game manually, select SAVE/LOAD at the Under the Hood menu, then choose SAVE or LOAD and follow the on-screen instructions.
