EPILEPSY WARNING

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms - children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

GETTING STARTED

MINIMUM SYSTEM REQUIREMENTS

If your computer fulfills the system requirements below, you are good to go.

OS: Windows Vista, Windows 7 or Windows 8

Processor: 2.5 GHz Intel or equivalent AMD Processor

Memory: 2 GB RAM

Graphics: Geforce 9600 GT or equivalent (min. 500 MB VRAM)

Hard drive: Minimum 2 GB required

INSTALLATION

The installation differs depending on if you are installing the game from the purchased DVD or directly from the Steam™ client.

DVD AUTORUN

When you place the SPINTIRES DVD in your PC's disk tray and close it, the Set-up application should start. The operating system may ask for your confirmation. If it does not, you can find Setup.exe on your DVD drive's root folder and start it manually. To install the game, please follow the instructions provided in the setup process. When prompted, please enter the product code from the back of the printed manual.

A Steam account is required to run SPINTIRES. If you don't have the Steam client installed on your computer yet, the installation process will also take you through its installation and account creation.

Steam provides patches and updates for the game, so expect some data to begin downloading immediately after installation.

STEAM

How to install the game

1. In your Steam client, go to the Library and select SPINTIRES
2. Click the Install icon on the game page
3. Select the drive you would like to install the game to and click Next
4. If you want to have a shortcut in your Start menu or on your Desktop, check the respective options and click Next to proceed
5. Wait for the game to finish downloading

INTRODUCTION

SPINTIRES is an Intel® award winning game produced by Oovee® Game Studios, that promises to be one of the best off-roading experiences available for PC. Take responsibility of operating large off-road trucks and venture across the all-terrain landscapes with only a map and compass to guide you.

Featuring a unique terrain deformation system and interactive environment, SPINTIRES is never the same – regardless of how many times you play it.

The wild off-road adventure begins in Russia, circa 1980-90. You are supplied with a soviet truck and a set of primitive tools for navigation. The task is to collect and deliver logs from deep within the wilderness, ready for shipment abroad.

First, you must load the truck, then using a map and compass you need navigate to your objectives with the logs secure to complete the objective successfully.

Plot a course and navigate using landmarks whilst trying not to lose your precious cargo, becoming stuck in the mud or depleting all of your fuel reserves. Plans accordingly so that you can pass a fuelling out-post and stop by when required.

MAIN MENU

Once you have launched the game, you will access the main menu of the game where you can choose from the following menus:

Play – begin a new single player or multiplayer game

Achievements – review the list of rewards you get while playing the game

Continue – proceed with already began mission

Controls – view and change keyboard/gamepad controls to drive your truck, operate a crane, attach a trailer and much more.

Settings – Set up the game options according to your preferences

Exit – press the button to exit the game

STARTING A NEW GAME

To start a new game:

1. First select Play game in the main menu.
2. Select Single Player or Multi Player mode.
 - 3.1. In the single player, choose the level of difficulty and a map you want to play. You can read more on difficulty levels in section “How To Play”.
 - 3.2. Press “Start game” to launch the selected map in the single player mode.
4. In the multi player mode, you can either create a lobby or join to existing game or lobby.
 - 4.1. To create a lobby, press Create Lobby. Wait for other player to join (4 maximum) – and follow single player procedure
 - 4.2. To join a game or lobby, search for it in the list under “Available games and lobbies”. Select the game or lobby you want to join – then in the lobby, mark “Ready” to vote to start the game. Wait for the lobby leader to start the game.
5. If you quit the single player session before finishing the map objective, Continue button in the main menu becomes available – it allows you to continue the last single player session.

GAME CONTROLS

SPINTIRES supports mouse, keyboard or a gamepad like the Microsoft Xbox 360 Controller for Windows.

You can't navigate UI with gamepad, so you can only use it to drive truck/operate cranes.

You can adjust the controls according to your preferences in the options menu or use the default settings as shown here:

MOUSE & KEYBOARD

Action	Primary	Secondary
Truck controls		
Accelerate	W	Up
Brake	S	Down
Turn left	A	Left
Turn right	D	Right
Change gear	R	
All Wheel Drive	E	
Lock Differential	Q	
Handbrake	Space	
Head Light	H	
Winch	F	
Camera Controls		
Front/ Rear camera	1	
Trailer camera	2	
Game controls		
Advanced mode	V	
Navigation mode	F1	
Menu	ESC	

By pressing V – you access additional game controls.

Use it to access special ability of installed add-ons and winch, like

- controlled mechanisms (used to load up manually)
- fuel capacity to fuel current and nearby trucks
- repairs capacity to repair current and nearby trucks

TRUCK

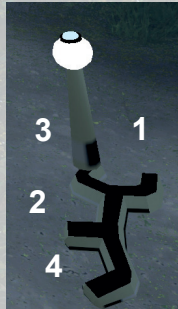

Use W, S, A, D to control the truck!

Press Space for parking brake, and H to toggle headlight.

Hit 1 or 2 to toggle camera view (or left-click + move mouse)

GEARBOX

While dragging gearbox (after clicking the gear stick tip or pressing R) – press the right mouse button to force acceleration.

1. Gearbox auto
This position makes the automatic transmission
2. Gearbox fast
This position forces engine's high-gear – recommended to use while crossing rough/muddy terrain. But be careful, not to stall your engine!
3. Gearbox slow
This is a manual transmission first and rear gears. The closer stick is to terminal position, the faster truck moves
4. Reverse

DIFFERENTIAL LOCK

When the differential lock is ON, wheels will always spin with the same speed. When it's OFF (default) torque would only be applied to wheels that have contact with ground.

The truck consumes considerably more fuel with diff lock ON.

ALL WHEEL DRIVE

By default (OFF), the torque is applied to rear axles only.

Truck consumes more fuel with all wheel drive ON.

WINCH

The winch is a great help to pull out the truck when you have stuck in the mud. To do so, you can use other truck or nearest trees.

HOW TO PLAY

1. Use the minimap to find out where are the garages, fuel station, lumber station, objectives and other trucks.
2. To remove the minimap's cloaking you need to drive next to them.
3. To unlock other trucks you should drive next to them.
4. Pick add-ons with the garage points at unlocked garage to unlock other garages.
5. Install add-ons and then follow to the lumber station, pick up the load and deliver to the objective.
6. If your truck is out of the fuel or seriously damaged, use other trucks with add-ons to repair, refuel or winch stuck trucks.

GARAGE

The garage is a place where you can install add-ons, trailers and change truck wheels. Wheels affect fuel consumption and friction with terrain. Trucks get automatically refueled and repaired in the garage. Any add-ons with repair capacity are automatically refilled in the garage.

If the garage is locked, it is unavailable – you need to deliver an amount of the garage points to unlock it. Specific add-ons and trailers contain garage points – see descriptions when installing them in the garage.

If garage is unlocked, you can rescue your truck to it at any time. At the start of the game, one of the garages is always unlocked.

FUEL STATION

The truck is automatically refueled at the fuel station. You can also fuel any additions with the fuel capacity that you have installed.

CLOAKING AREA

Cloaking area is a special area, which makes portion of the minimap invisible. When you drive close to the cloaking area center, the cloak is removed – so you can use the minimap to navigate.

You don't have to remove cloaking areas to complete the game objective.

DIFFICULTY LEVELS

YOU CAN PLAY SPINTIRES IN TWO DIFFICULTY LEVELS: CASUAL AND hardcore

Difference between the two is set of achievements you can unlock, and:

- You can't rescue your truck to garage while playing Hardcore
- You can't engage Differential Lock while using the automatic transmission mode while playing Hardcore
- You can't skip the time while playing Hardcore
- Fuel consumption is lower, and applied damage is lower in Hardcore mode
