Mac:
\Users\<User Name>\Library\Application Support\Epic\Obduction\Saved\SavedGames\
*Note, your user's Library folder is hidden by default. To quickly access this folder, in Finder, press the Command, Shift, and G keys at the same time and in the text box that follows, type: ~\Library\Application Support\Epic\Obduction\Saved\SavedGames\

4. Known Behavior(s):
Multi-GPU configurations
-Negative scaling will be noticed under nVidia GeForce cards in an SLI configuration. Please disable SLI in the nVidia control panel.
-Flickering shadows and in-game notes will be noticed under AMD Radeon GPUs in a Crossfire configuration. Please disable Crossfire in the Radeon settings control panel.

5. Special Keyboard Hotkeys
Keyboard key **N** - Changes navigation mode between Free Mode and Point-and-click
Keyboard key **C** - Changes cursor mode between Locked and Unlocked mode

5. How to Contact Technical Support:
When contacting technical support, be sure that your system meets the minimum system requirements, otherwise, our support team will not be able to assist you. When reporting an issue, please provide as much information as you can about the type of computer you are using (Mac or PC, what operating system, type of graphics card and/or gpu chipset, etc) along with a complete description of the problem you are experiencing.

To report an issue, you can submit a support ticket to support.cyan.com or write to us by email at support@cyan.com.
