[TAB] Inventory

Change clothes(clothes are Itemized)

Remove equipped clothes before equipping new clothes

Building system (provisional)

Itemized

From a log obtained by logging trees with an ax,

It can be crafted and installed.

You can craft in the craft window (U).

Please craft by selecting craft recipe and

Delete base floor and installed buildings

Three types of walls, walls with windows, walls with doors

The wall can not be constructed without the base floor and pillars are built

Pillar

Ceiling and stairway Ceiling are able with bilt 4 pillars.

Barrier, gate barriers, farm (temporary)

We recommend that you install stairs as the next step to the setting the base floor with no walls.

In many cases it is not possible to install after installing the wall (to be fixed)

Item box and bed can be placed on the base floor.

[Mouse Wheel] The building rotates 90 degrees at a time.
