If you choose Abandon faction, all the main game features and mechanics are the same.**

Choosing a faction

Choose the character's faction between Guardians or Abandon.

Guardians

A military organization that, having guided humanity to their new home on Titan, tasked themselves with protecting all human life from the dangers associated with leaving a dying planet. These dangers included the rival faction, Broken.

Abandon

An organization set up to protect the refugees of Frau, the harbingers of the great mutation. Lacking in solid organization they are known to operate alone or in gangs of bandits. Over time Abandon became the generic term for all mutants on Titan.

A Token is a chip that the Broken collect. You can earn Token when you battle against the Broken and complete missions. Gather as many Token as you can. Token can be exchanged for useful items at the Token Exchange window by selecting an item and clicking on the Trade button.

Cron is the Titan currency. You can buy almost anything with Cron. Recruits are rewarded with Cron when they manage to complete missions. The higher the risk, the more Cron you get. You can also earn Cron by selling your unwanted items. Earn as much Cron as you can and spend it wisely.
