Example – Ultimate Chicken Horse

Best Practices

My coworker Kaci did a much longer video about this, so go watch that.

Double check your work ever realize your shirt was inside out several hours after putting it on? yeah.

Get feedback

sometimes you need a someone else to tell you that your shirt is ugly.

Steam-specific Tasks give yourself time

Store Page Review

We will tell you your shirt is inside out! but that can take some time. **Build Review Tips** common stumbling blocks

- Submit a feature-complete build as early as possible
- You can make changes after passing review!

Build Review Tips common stumbling blocks

- Any claims you make should be true:
 - If you say you have multiplayer, your submitted build needs to have multiplayer
 - 7 levels? Achievements? Those better be in there!
- Give our testers a debug mode / skip ahead mode

Store / Build Review Timeline

- A perfect submission will still take about a week to pass both reviews
- Give yourself more than that 3-4 weeks total means you have plenty of breathing space

Next Fest, Fests, and Third-Party Events visibility is good.

How Visibility Works on Steam customer interest is king. go listen to my coworker Erik talk about it.
